Re Doorknob hanging ads...I was on vacation for the past few weeks and I had to have my son stop by my house after work, 2-3 times per week, to remove door hangers. Is there anyway the City could implement a bylaw to make the hanging of ads...or any doorknob hangers or sticking ads into the door frame on the garage illegal? It only advertises that I was not home and makes it easier for the crooks to see who isn't home. With the number of break and enters around the City, it is a safety concern. Please look into this, I have lived in other cities that have adopted a bylaw that makes this illegal.
