---

Hello Karen,

I hope your summer is going well.

I am looking to have Proclaiming 'Circular Economy Month' of October 1-31<sup>st</sup> added to the September (I think it is 19<sup>th</sup>) council meeting.

This is slightly different from previous years, as it was proclaimed previously as Waste Reduction Week during the 3<sup>rd</sup> week of October.

Now we have Canada's first circular economy month which still includes Waste Reduction Week during the 3<sup>rd</sup> week of October.

The Circular Economy focuses on taking, making, reusing, repairing, recycling so an item can re-enter the economy instead of being thrown out. We speak about this with older students in schools.

With the approval of proclamation of Circular Economy Month in Airdrie it will allow staff to promote Airdrie citizens to re-think their waste habits, what they dispose of where their materials may end up at the end of their lifecycle.

We kindly ask if City Hall can be illuminated Blue & Green on Tuesday October 18, 2022

Thank you in advance and please let me know if any additional information is needed.

Have a great weekend,

---
