Hi Tega.

ME deals with parking issues all over the City daily. It is our most frequent complaint. We do get complaints for parking in alleys but more frequently the complaint is for parking on the roadways. They are dealt with on a complaint basis.

I have checked with the RCMP ladies who take the calls and was advised that parking complaints are usually directed back to ME. I checked with the watch clerks who get the 911 and evening complaints and they advised the same.

Me has had complaints about alley parking or road parking in this area over the years but not more so than any other City area.

Jane
